PROFESSIONAL PROFILE

Systems engineer with proven experience in web development and QA. Specialist in optimizing digital products through the implementation of critical security validations, seamless API integrations, and UX enhancements, delivering measurable increases in sales conversion and operational efficiency.

WORK EXPERIENCE

BACK 9 (Software Development) | *QA / Frontend / Mobile Developer* | August 2025 – Present

- Enhanced the UX of the El GoodTrip platform, boosting sales from 1 ticket every 3 days to 3 tickets daily by the second month. Developed scalable frontend features and built the central administrative dashboard.
- Led the mobile application architecture for El Good Trip using React Native and Expo Go, ensuring real-time synchronization with the booking engine. Integrated an ecosystem of 4 critical APIs to automate availability, authentication, and payments, implementing the React Native Stripe gateway to guarantee fast and secure transactions.
- Executed comprehensive testing on the mobile applications of Avior and Rutaca airlines. Resolved critical logic errors within the booking system to prevent production failures and standardized validations under aviation industry GDS regulations.

ORGANYTECH SYSTEMS, C.A. | *Quality Assurance (QA)* | June 2025 – August 2025

Ensured overall software quality by proactively identifying defects and system bugs across more than 50 tickets, guaranteeing that each feature operated seamlessly as expected.

VISION TRAVEL | *Travel Agent* | July 2017 – January 2024

Managed complex tourism operations and provided personalized consulting, resolving critical issues in high-demand environments to ensure maximum customer satisfaction.

EDUCATION

UNIVERSIDAD DE ORIENTE (UDO) | Anzoátegui, Venezuela

B.S. in Systems Engineering | Graduated in October 2024

FEATURED PROJECTS

- **Medical Appointment System (Thesis 2024):** Fullstack Development (Python/Django) that automated healthcare administrative processes, improving records management by 100%.

TECHNICAL SKILLS

- **Languages & Frameworks:** TypeScript, JavaScript, Python, C++, React Native, PHP, Next.js, React, Node.js, Django.
- **Languages:** Spanish (Native), English (B2 - Upper Intermediate).
