PROFESSIONAL PROFILE

Systems Engineer with proven experience in Web Development and QA. Specialist in optimizing digital products through the implementation of critical security validations, seamless API integrations, and UX enhancements, delivering measurable increases in sales conversion and operational efficiency.

WORK EXPERIENCE

BACK 9 (Software Development) | *QA & Frontend / Mobile Developer* | August 2025 – Present

Led the architecture of the iOS/Android mobile application using React Native and Expo Go, ensuring real-time synchronization with the booking engine. Revamped the UX of the *El GoodTrip* platform, driving a sales surge from 1 ticket every 3 days to 3 daily tickets by the second month. Implemented Cursor and Lovable to accelerate the development of the mobile MVP and an administrative Dashboard, integrating 4 core APIs for availability, payments, and authentication. Executed comprehensive testing on the *Avior* and *Rutaca* apps, correcting critical logic errors in reservations and standardizing validations under GDS regulations.

ORGANYTECH SYSTEMS, C.A. | *Quality Assurance (QA)* | June 2025 – August 2025

Ensured overall software quality by proactively identifying defects and system bugs across **more than 50 tickets**, guaranteeing that each feature operated seamlessly as expected.

VISION TRAVEL | *Travel Agent* | July 2017 – January 2024

Managed complex tourism operations and provided personalized consulting, resolving critical issues in high-demand environments to ensure maximum customer satisfaction.

EDUCATION

UNIVERSIDAD DE ORIENTE (UDO) | Anzoátegui, Venezuela

B.S. in Systems Engineering | Graduated in October 2024

FEATURED PROJECTS

- **Medical Appointment System (Thesis 2024):** Fullstack Development (Python/Django) that automated healthcare administrative processes, improving records management by **100%**.
- **Software Development: Battleship Game (2019):** Programmed game logic and designed a fully functional user interface using Game Maker and Adobe Illustrator.

TECHNICAL SKILLS

- **Languages & Frameworks:** TypeScript, JavaScript, Python, C++, React Native, PHP, Next.js, React, Node.js, Django.
- **Languages:** Spanish (Native), English (B2 - Upper Intermediate).
